

Nobody Makes Networking Easier!

54 Mbps wireless - G

Wireless-G устройствата на LINKSYS са напълно съвместими със стандарта 802.11g и позволяват скорост на безжичния трансфер до 54Mbps, подобрена сигурност, WEP криптиране и филтриране, както и комуникация с 802.11b (11 Mbps) безжични мрежи.

Докато другите ги търсят - Вие вече ще ги ползвате!

WAP-54G

54 Mbps Access Point
with bridging support!

- 2.4 GHz, 54 Mbps Wireless Access Point;
- Fully support for old Wireless - B devices;
- Advanced wireless security with:
 - 128-bit WEP Encryption;
 - MAC address filtering
- Web-based configuration and management;
- Supports Wireless Bridging & Event Logging;
- Supports 13 channels & external antenna

WRT-54G

54 Mbps AP + Router

- Access Point + Router + 4-port Switch;
- Fully support for old Wireless - B devices;
- DHCP support, NAT firewall, VPN pass-through;
- Single Internet connection sharing solution for all wireless and wired Ethernet clients;
- 128-bit WEP Encryption, MAC / IP filtering;
- 10/100 Mbps Fast Ethernet 4-port Switch;
- Sensible solution for both Home&Office use.

WMP/WPC-54G

PCI / PCMCIA Card

- Wireless-G solutions for desktop / notebooks;
- Interfaces: PCI 2.1 / 32-bit PCMCIA CardBus;
- 128-bit WEP Encryption supported;
- Interoperability with old Wireless-B devices;
- External / built-in antenna w/ 500m range;
- Support TCP/IP, IPX, NDIS 4, 5, 5.1, NetBEUI;
- Support Windows 98SE, ME, 2000, XP;
- Support 13 wireless channels

WET-54G

54 Mbps Wireless Ethernet Bridge

- Connects ANY Ethernet-equipped device (printer, scanner, camera, notebook, desktop) to the 54 Mbps Wireless network;
- Provides high-speed wireless bridging between remote workgroups;
- Supports Power Over Ethernet (POE);
- Works with Windows, Macintosh, Linux, PlayStation devices without any drivers
